

# Prosecutor III starts Beta Review

Jano Justice Systems is pleased to announce that Prosecutor III, the third release of CLERICUS MAGNUS's Prosecutor Module has now entered Beta testing.

Prosecutor III will feature a totally new User Interface with distinct functional views for the Assistant States Attorney (ASA), ASA Manager and the Victim Witness Advocate. The ASA view will by default on show open cases assigned to that ASA and from that screen can perform ALL of the ASA case management functions.

Jano developed Prosecutor III with two main goals in mind:

- 1) To provide a better toolbox for SAO staff
- 2) To reduce the volume of paper handling

Major enhancements in Prosecutor III include:

**Auto Arrest Report Capture.** Prosecutor III will automatically capture and index arrest reports that have been submitted electronically.

**Automated Discovery.** All discovery that is stored electronically (arrest reports, mug shot photo, crime scene photos, witness statements, etc.) can be generated for the defense by the press of a button. If the defense is the Public Defender, Automated Discovery will automatically add the discovery items to the Public Defender's case and document management system.

**Easy Desktop Capture.** Any document on the desktop (email, email attachment, PDF, .doc, etc.) can be automatically moved into the Prosecutor document management system for indexing and storage with just a couple of clicks of a mouse.

**New Toolbox for ASA.** Below is first the screen the ASA will see when he/she logs on. From this screen the ASA is one click away from all Prosecutor functionality, including 3G Case Processing. By default, Prosecutor will display all of the OPEN cases that have been assigned to this prosecutor.

**Cases by ASA**

**BOB**

Name	Case Number	#	Charge Description	Next Date	
ABBATE MICHAEL P	2003CF000062	1	HAZING RESULTS IN BODI
